STAT

It was a real pleasure to again meet with you in Washington and to discuss your group insurance program with you.

In cooperation with those requests made of me, we are currently preparing thirty-two copies of the master contract; we have instructed our Statistical Department to send you two copies of the quarterly IBM claim listing; and we have under advisement your request to set forth some type of simplified listing for the relative value surgical schedule.

This letter will also confirm our agreement that in the future we will receive monthly payments under your health insurance program without the supporting membership data, which will be retained by your agency for security reasons. At the end of the first twelve-month period, certain individuals, who will be cleared for security, will work with you in regard to an annual audit of premium under the program.

I am in hopes that you will be able to arrange for a trip to Omaha in the very near future to look over our current method of handling your group case, as well as the other programs insuring employees under the Federal Employees Health Benefits Act. I am certain that such a trip will be beneficial to both organizations, as your past visits to Omaha have been.

Yours sincerely,

A. W. Randall  
Vice President
